EDUCATION

Ph.D. in Electrical and Computer Engineering ***2015 - 2021***

- Department of Systems and Computer Engineering, Carleton University, Canada.
  Dissertation: *Distributed and Parallel Metaheuristic-based Algorithms for Online Virtual Resource Allocation.* Supervisor: *Professor Changcheng Huang.*

M.Sc. in Telecommunications Engineering ***2012 - 2013***

- Faculty of Computer Science, University of Sunderland, UK.

B.Eng. Degree in Electronics and Telecommunication ***2003 - 2008***

- College of Engineering Technology, Can Tho University, Vietnam.

PROFESSIONAL EXPERIENCE

Postdoctoral Fellow **Mar, 2022 – Feb, 2023**

- School of Information Technology, Carleton University, Ottawa, Canada.
  Supervisor: *Professor Wei Shi and Professor Marc St-Hilaire*.
  - Led an independent project in Virtual Network Embedding in Internet of Vehicles, resulting in several peer-reviewed publications in one journal and three conferences.
  - Mentored graduate students, providing in research topics, methodologies, data analysis.
  - Presented research papers at international conferences, promoting academic engagement.

Research Associate **Dec, 2021 - Feb, 2022**

- Department of Systems and Computer Engineering, Carleton University, Ottawa, Canada.
  Supervisor: *Professor Changcheng Huang.*
  - Conducted the research project in Join Node-Link Algorithm for Embedding Virtual Networks with Conciliation Strategy, resulting three impactful publications in renown journal and conferences.
  - Worked collaboratively with fellow researchers, contributing insights and expertise to accomplish the project and achieve the research goals.
  - Presented research outcomes at two conferences, enhancing the visibility of research within the academic community.

Research Internship **Jan, 2020 - Mar, 2021**

- BitQubic Corp., Ottawa, Canada.
  - Executed specific research tasks on Kubernetes system and Google Cloud Platform, contributing to design and implement an expandable and reliable edge-computing platform considering mobility and security constraints while gaining hands-on experience.
  - Collected and analyzed research data under the guidance of senior researchers, ensuring accuracy and adherence to methodologies.

- Prepared detailed documentation of research procedures, findings, and outcomes, contributing to project reports.
- Published research papers in a reputed journal and two well-known conferences.

Instructor ***Sept, 2013 - Sept, 2015***

- Can Tho University of Technology, Can Tho City, Viet Nam.
  - Developed and prepared course materials for Electrical Materials Engineering, including lecture notes, presentations, quizzes, assignments and exams.
  - Conducted engaging course lectures in a dynamic and interactive learning environment and precise assessments of student performance.
  - Incorporated student feedback to improve teaching methods and course content.
  - Provided guidance and support to students, addressing queries, concerns, and career paths.

Network Operation Center (NOC) Engineer ***Mar, 2009 - Nov, 2010***

- Viettel Telecom Company, Can Tho City, Viet Nam.
  - Monitored network performance, promptly addressed issues, and analyzed alarms using monitoring and surveillance software.
  - Maintained and managed network infrastructure, and implemented configuration changes and updates to optimize network performance.
  - Collaborated with cross-functional teams, vendors and service providers to address and resolve complex network issues.

Operation Management Center (OMC) Engineer ***Jun, 2008 - Mar, 2009***

- Vietnam mobile services company (VMS-Mobifone) - Zone 3, Can Tho City, Vietnam.
  - Surveilled telecommunications networks to ensure optimal performance and promptly addressed incidents, and disruptions.
  - Configured and maintained network devices, conducted troubleshooting, and collaborated with cross-functional teams to ensure seamless and efficient operations.
  - Proactively contributed to capacity planning, ensuring scalability and efficiency in network infrastructure.
  - Utilized strong technical skills, adaptability, and effective communication to contribute to efficient and secure OMC operations.

PROFESSIONAL ACTIVITIES

TPC Members:

- IEEE International Wireless Communications & Mobile Computing Conference (IWCMC 2024)
- IEEE International Conference on Software Engineering and Artificial Intelligence (SEAI 2024)
- IEEE International Conference on Signal Processing and Integrated Networks (SPIN 2024)
- International Conference on Information Society and Smart City (ISSC 2024)
- International Conference on Computer Vision and Control Systems (CVCS 2025)
- International Symposium on Intelligent Technology for Future Transportation (ITFT) 2024.
- Intelligent Systems Conference (IntelliSys) 2024
- Future of Information and Communication Conference (FICC) 2024

- FTC 2024 - Future Technologies Conference 2024
- International Conference in Optical Communication and Computer Engineering (ICOCCE 2024)
- International Conference on Applied Mathematics and Information Systems (AMIS 2024)
- International Conference on Digital Telecommunications (ICDT 2024)
- International Conference on Automation Engineering and Artificial Intelligence (ICAEAI 2024)
- International Conference on Communication Theory, Reliability, and Quality of Service (CTRQ 2024)
- International Conference on Artificial Intelligence and Smart Transportation Systems (AISTS 2024)
- International Conference on Advances in Human-oriented and Personalized Mechanisms, Technologies, and Services (CENTRIC 2022-2024)

Workshop Chair:

- International Conference on Pattern Recognition, Machine Vision and Intelligent Algorithms (PRMVIA) 2022-2024. Topic: Evolutionary Computation for Intelligent Communication Networks in Smart Cities.

Journals - Reviewer:

- IEEE Internet of Things Journal
- Elsevier Journal of Network and Computer Applications
- IEEE Transaction on Network and Service Management
- IEEE Access
- Springer Journal of Supercomputing
- Journal of Networking and Network Applications
- Springer Nature Artificial Intelligence Review Journal
- Journal of Service Science and Management
- International Journal of Communication Systems
- Hindawi Journal of Sensors
- MDPI Electronics Journal, Mathematics Journal, and Sustainability Journal
- International Journal of Vehicle Information and Communication Systems

Conferences - Reviewer:

- IEEE Global Communications Conference (GLOBECOM)
- IEEE Wireless Communications and Networking Conference (WCNC)
- IEEE Vehicular Technology Conference (VTC)
- IEEE Vehicular Power and Propulsion (VPP)
- IEEE/ACM Conference on Connected Health Applications, Systems, and Engineering Technologies (CHASE)
- International Conference on Computer Science and Application Engineering (CSAE) published in ACM
- International Conference on Informatics Engineering & Information Science (ICIEIS)
- International Conference on Computer, Big Data and Artificial Intelligence (ICCBDAI)

- International Conference on Pattern Recognition, Machine Vision and Intelligent Algorithms (PRMVIA)

SCHOLARSHIPS, AWARDS AND ACHIEVEMENTS

***Grants*:**

- Research Intern at BitQubic funded by NSERC conducting a research on extensible and reliable edge computing infrastructure. **Jan 2020 - Mar 2021**
- Awarded student Travel Grant from IEEE International Conference on Communications (ICC2021) **2021**
- Awarded student Travel Grant from IEEE Global Communications Conference (Globecom2021) **2021**

***Scholarships*:**

- Carleton University Departmental Scholarships **2015-2019**

***Teaching Assistant - Carleton University*:**

- SYSC5801: Advanced Topic in Computer Communications,
- SYSC5001: Discrete Simulation/Modelling (LEC),
- SYSC2310: Introduction to Digital Systems,
- SYSC2004: Object-Oriented Software Development (LEC),
- ECOR1606: Problem Solving and Computers.

***Certificates*:**

- Neural Networks and Deep Learning - Coursera Certificate **2019**
- Certificate of Mobile Technologies and Services Training Program, Centre for
- Excellence in Telecom Technology & Management Mumbai **2014**
- Certificate in Teaching Methodology, Can Tho University **2013**

LIST OF PUBLICATIONS

Journals:

1. **K. Nguyen**, W. Shi and M. St-Hilaire, "Novel Dynamic Vehicle-Ranking Algorithms based on Neighborhood Information and the Correlation of Preceding Embeddings for Mapping Virtual Networks in Internet of Vehicles," *IEEE Transactions on Vehicular Technology*, 2024 (under review).
2. **K. Nguyen** and C. Huang, "Toward Adaptive Joint Node and Link Mapping Algorithms for Embedding Virtual Networks: A Conciliation Strategy," in *IEEE Transactions on Network and Service Management*, vol. 19, no. 3, pp. 3323-3340, Sept. 2022, doi: 10.1109/TNSM.2022.3159479.
3. **K. Nguyen**, S. Drew, C. Huang and J. Zhou, "Parked Vehicles Task Offloading in Edge Computing," in *IEEE Access*, vol. 10, pp. 41592-41606, 2022, doi: 10.1109/ACCESS.2022.3167641.

4. **K. Nguyen** and C. Huang, "Distributed parallel genetic algorithm for online virtual network embedding," *Wiley International Journal of Communication Systems*, 23 Dec 2020, pp. e4691, doi: 10.1002/dac.4691.
5. Q. Lu, **K. Nguyen** and C. Huang, "GAONE: A Novel Approach for Online One-stage Virtual Functions Embedding", *Journal of Networking and Network Applications*, 2021 (to appear).
